Online Bus Ticket Booking System

1. Aim

To design and develop a responsive Online Bus Ticket Booking System using HTML, CSS, and JavaScript to search buses, select seats, book and cancel tickets, manage user accounts, and provide an admin dashboard.

2. Algorithm

1. Start the program.
2. Design the webpage using HTML and CSS.
3. Create user registration, login, and password recovery forms.
4. Allow users to search buses by source, destination, and journey date.
5. Display bus types, timings, ticket prices, and available seats.
6. Allow users to select seats and enter passenger details.
7. Provide booking confirmation, booking history, and cancellation options.
8. Create an admin panel to manage buses, categories, users, comments, and schedules.
9. Provide a report generation section.
10. Display the website in a browser.
11. Stop the program.

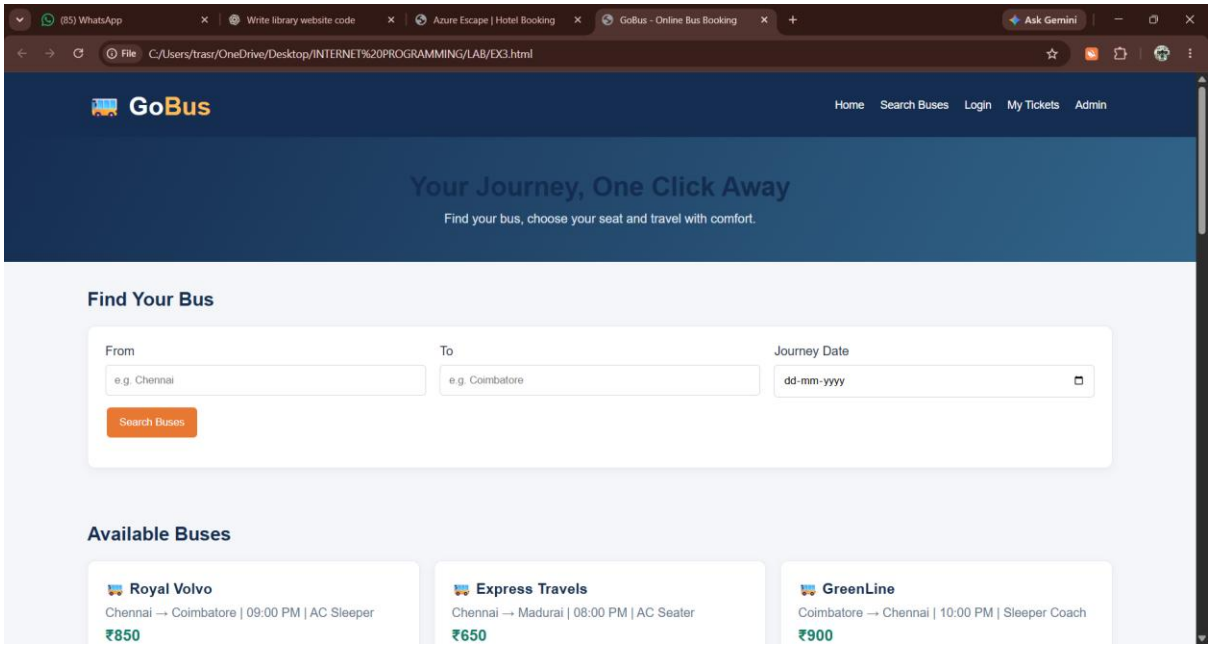

3. Complete Code

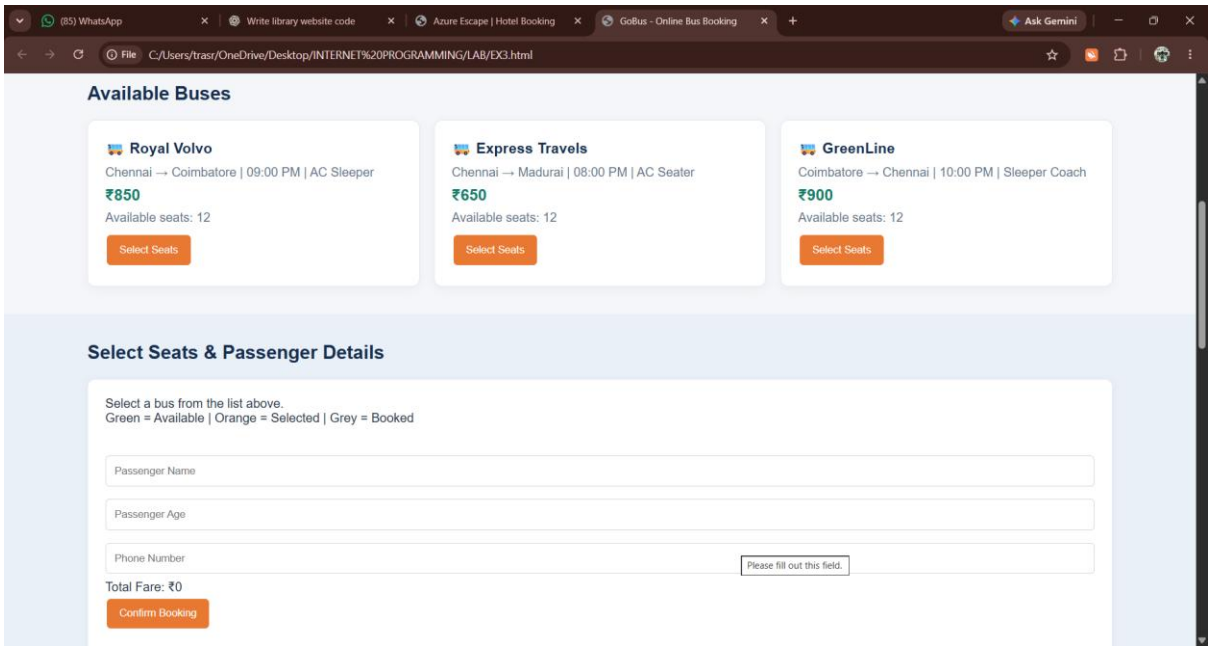

```
<!DOCTYPE html>
<html>
<head>
  <title>Online Bus Booking</title>
  <style>
    body {
      font-family: Arial;
      background: #f2f5f9;
      text-align: center;
    }
    header {
      background: #152d50;
      color: white;
      padding: 20px;
```

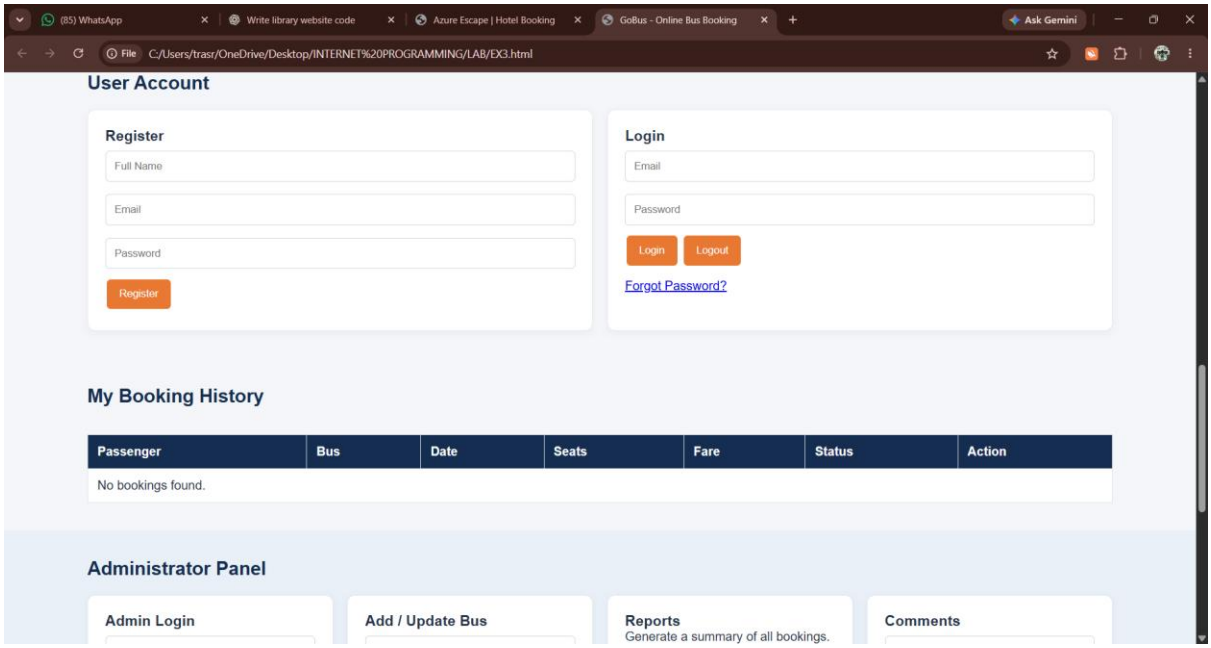

```
        }
        .box {
            background: white;
            padding: 20px;
            margin: 20px auto;
            width: 300px;
            border-radius: 8px;
        }
        input, select, button {
            padding: 10px;
            margin: 8px;
        }
        button {
            background: #e97832;
            color: white;
            border: none;
            cursor: pointer;
        }
    </style>
</head>
<body>
<header>
    <h1>GoBus - Online Bus Booking</h1>
</header>
<div class="box">
    <h2>Search Bus</h2>
    <input type="text" placeholder="From">
    <input type="text" placeholder="To">
    <input type="date">
    <button>Search Bus</button>
</div>
```

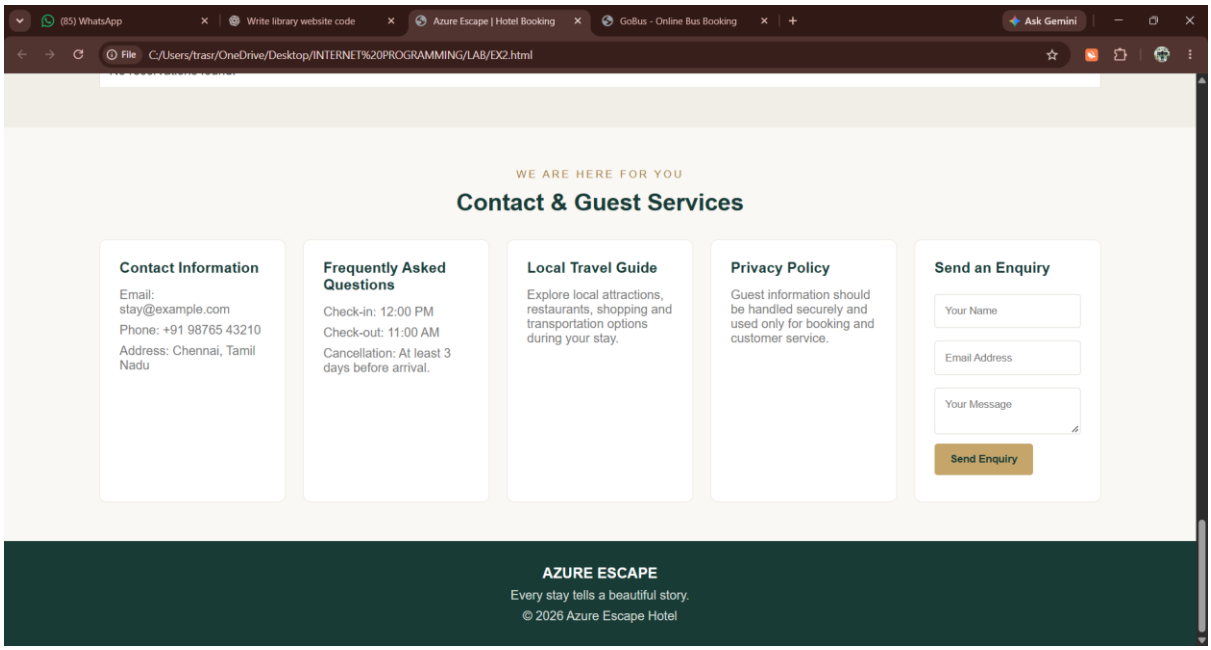

```
<div class="box">
  <h2>Book Ticket</h2>
  <select>
    <option>AC Sleeper - ₹850</option>
    <option>Volvo - ₹1000</option>
    <option>Seater - ₹500</option>
  </select>
  <input type="text" placeholder="Passenger Name">
  <button>Book Ticket</button>
  <button>Cancel Ticket</button>
</div>
<div class="box">
  <h2>User Login</h2>
  <input type="email" placeholder="Email">
  <input type="password" placeholder="Password">
  <button>Login</button>
  <button>Register</button>
</div>
<div class="box">
  <h2>Admin Panel</h2>
  <button>Manage Buses</button>
  <button>Manage Users</button>
  <button>Generate Report</button>
</div>
</body>
</html>
```
